MATTING

plastex

HEAVY DUTY ENTRANCE MATTING

Frontrunner Plus

Standard:

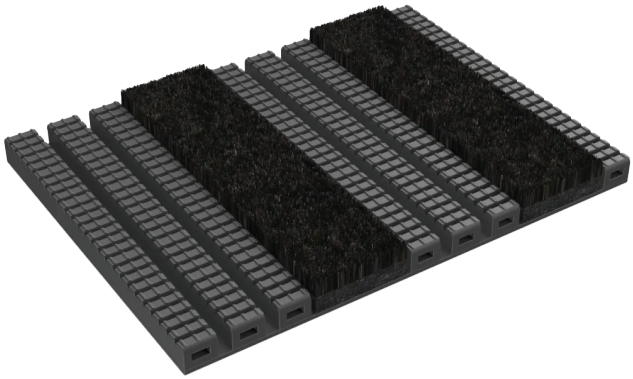

EN ISO 13501-1:2007-Cfl-S1
ASTM E648 – Class 1

Descriptions:

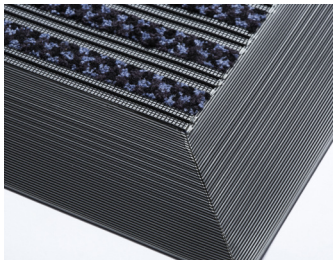

- Heavy-duty entrance matting for high-traffic areas.
- Effective at removing dirt, debris, and moisture.
- Open-grid design for excellent drainage.
- Slip-resistant surface for added safety.
- Made from durable, long-lasting materials.
- Suitable for indoor and outdoor use.
- Easy to clean and maintain.
- Ideal for commercial and industrial entrances.
- 6 years warranty.
- Made in UK

Applications:

Commercial entrances, Public facilities, Educational institutions, Healthcare facilities, Hotels & hospitality.

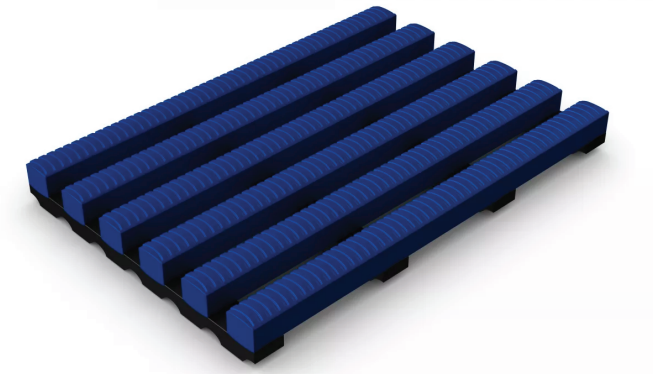

plastex

ANTI SLIP MATTING

Heronrib

Standard:

DIN 51097: C; ASTM 1677: 0.9/0.7

Descriptions:

- Self-draining, slip-resistant matting designed for wet areas with high barefoot traffic.
- Embossed surface provides a strong grip underfoot.
- Constructed from strong, non-porous PVC with channeled underbars for effective drainage.
- Anti-microbial and anti-fungal properties ensure excellent hygiene.
- Flexible and easy to cut on-site to fit any application.
- UV resistant; however, the red color is not colorfast and not recommended for outdoor direct sunlight applications.

Applications:

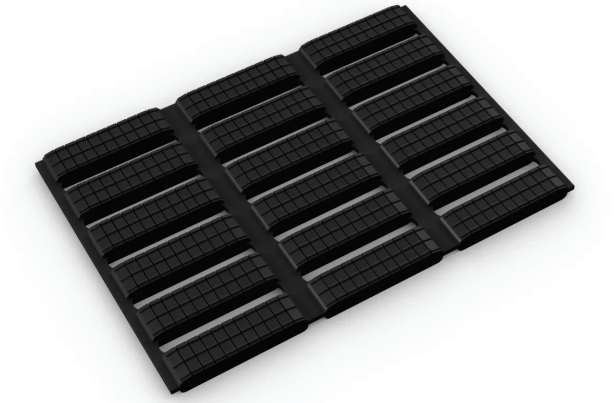

Swimming pool decks, Locker rooms, Shower rooms, Changing rooms, Gyms & Recreation centers.

plastex

LIGHT WEIGHT SLIP RESISTANT MATTING

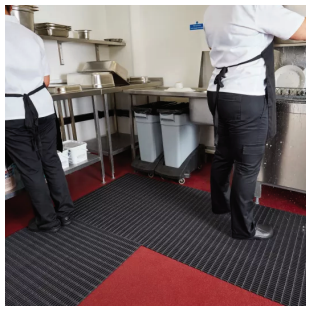

Floorline

Standard:

EN13501-1:2007 -Cfl -S1
DIN51130: R11, V10
DIN51097: Classification C
ASTM E303 Dry/Wet with lines along–lines across
72-99 / 59-84

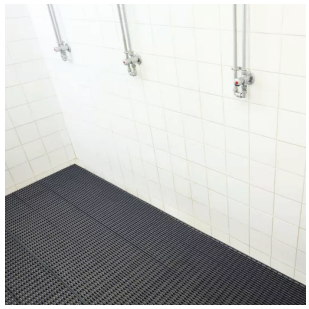

Descriptions:

- Lightweight slip-resistant matting.
- Provides excellent drainage and airflow.
- Comfortable underfoot with anti-fatigue properties.
- Made from durable, flexible PVC.
- Suitable for wet and dry environments.
- Easy to clean and maintain.
- Ideal for workplaces, kitchens, and leisure areas.

Applications:

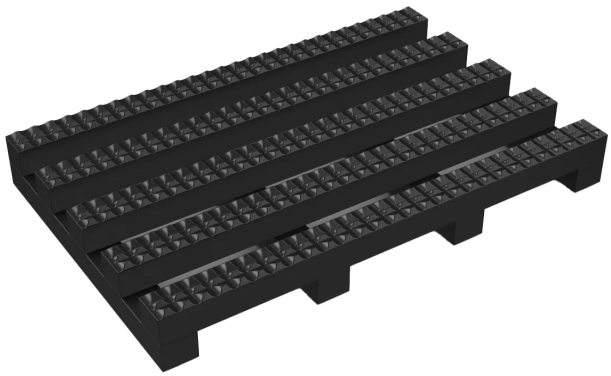

Industrial sectors, Commercial spaces, Healthcare environments, Food processing areas & Outdoor applications.

plastex

HEAVY DUTY ANTI SLIP MATTING

Vynagrip

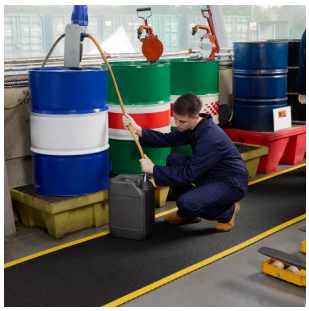

Standard:

BS 2782: Part 2 Method 230A
Electric strength = 12,600 volts
EN ISO 13501-1:2007-Cfl-SI
DIN 51130: R11, ASTM 1677: 1.0/0.9

Descriptions:

- Heavy-duty anti-slip matting.
- Provides excellent slip resistance.
- Designed for wet and oily environments.
- Open grid construction for drainage.
- Durable and long-lasting material.
- Resistant to chemicals and oils.
- Ideal for industrial and commercial use.
- Easy to clean and maintain.

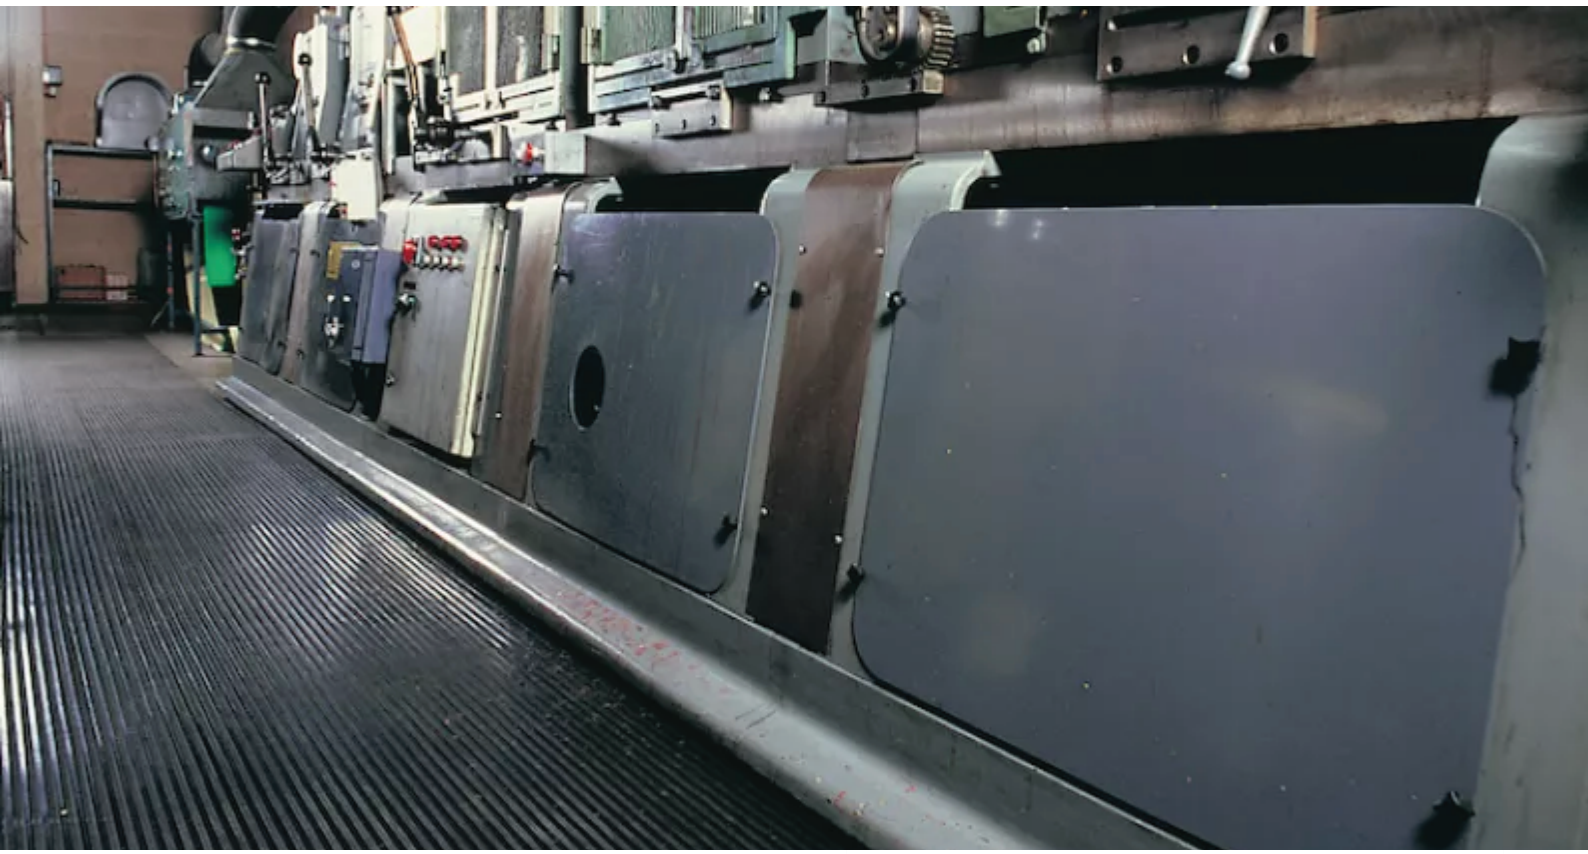

Applications:

Industrial, Marine, Automotive, Construction, Public transport & Warehousing.

plastex

HEAVY DUTY ELECTRICAL INSULATION MATTING

FlexiTred

Standard:

BS 2782: Part 2 Method 230A.
Electric strength = 20,000 volts
DIN 60243-1 (VDE 0303 part 21): 1999-03

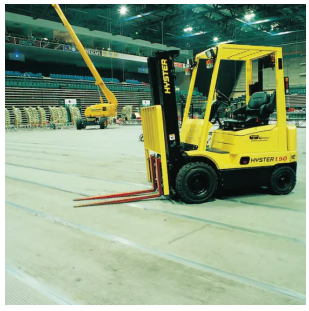

Descriptions:

- Heavy-duty electrical insulation matting.
- Provides protection against electrical hazards.
- Ribbed surface for enhanced grip and slip resistance.
- Durable and wear-resistant material.
- Suitable for use in high-voltage areas.
- Designed for industrial and commercial environments.
- Easy to install and maintain.
- Meets industry safety standards.

Applications:

Electrical & Utilities.

plastex

ANTI FATIGUE MATTING

Tuff Spun

Standard:

ASTM 4060: <1g loss

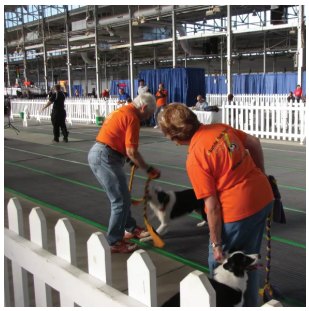

Descriptions:

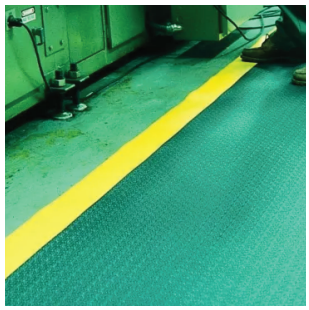

- Provides cushioning and support for comfort.
- Reduces fatigue from prolonged standing.
- Durable and lightweight construction.
- Suitable for dry work environments.
- Slip-resistant surface for safety.
- Easy to install and maintain.
- Ideal for workplaces and industrial settings.

Applications:

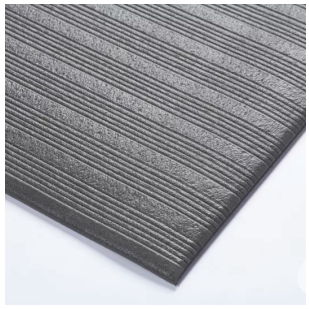

Industrial, Manufacturing, Warehousing, Hotels, Gyms & Food processing.
