Complete Safety Solutions Ensuring Protection in Every Workplace Environment.

Prosafe

WE FOCUS ON YOUR SAFETY

Prosafe Group has been involved in the supply and distribution of Personal Protective Equipment (PPE) for 30 years. Since its inception in 1995, Prosafe has established itself as one of the biggest safety equipment providers in the Indian Ocean region, supplying countries like Mauritius, Madagascar and Mozambique, and now developing new markets across the region.

Over the years, we have earned the trust of key players, leaders in their respective markets by putting all our energy and expertise into achieving our mission: to bring every worker home safely. Agriculture, mining, hospitality, textile, public sector, ports & airports: Prosafe Group covers a wide and exhaustive range of activities.

We truly believe that we achieved our goal of market leadership thanks to an undivided focus on safety.

Through our international network of suppliers and industry collaborators, we constantly keep ourselves updated on the various new approaches to risks assessments, the highest international standards and the relevant strategies deployed in the workplace to address the identified risks.

MISSION

- We endeavour to bring all workers home safely.
- We create the best environment and provide training to employees so they can perform to the best of their abilities.
- We aim to be involved in developing CSR initiatives in our vicinity.
- We strive to abide by all rules and regulations prevailing the health & safety sector.

VISION

Prosafe is a leading supplier of Personal Protective Equipment (PPE) in the Indian Ocean region, with operations in Mauritius, Madagascar, and Mozambique.

Our vision is to become the leading provider of health and safety solutions in the Indian Ocean region.

CORE VALUES

Customer Focused
Committed to understanding and meeting customer needs.
Reliability
Delivering consistent quality and dependable service.
Responsibility
Upholding accountability in all business practices.
Integrity
Operating with honesty, ethics, and transparency.
Passionate People
Encouraging teamwork and dedication.
Quality
Providing top-tier products and services.

OUR PARTNERS

SERVICES

- **Calibration of Gas Detectors** – Ensuring accurate and reliable gas detection for workplace safety.
- **Inspection and Maintenance of Lifelines** – Verifying the integrity and compliance of fall protection systems.
- **SCBA (Self-Contained Breathing Apparatus) Inspection** – Testing and maintaining breathing equipment for hazardous environments.
- **CALiTrak™ Implementation** – Utilizing the CALiTrak™ application to provide comprehensive maintenance history and management for all instruments sold or calibrated by our technical staff, ensuring equipment reliability and compliance.
- **MQA-Approved Training Institution** – Offering certified health & safety training programs, including **Respiratory Protection**, **Working at Height (Basics)**, **Gas Detection (Basics)**, and **Confined Space Entry**.

HEAD PROTECTION

BUMP CAP
SM923

Standard:

EN 812: 2012
MSB certified

Descriptions:

- 100% cotton outside.
- ABS shell.
- EVA foam pad.
- Ventilated side provided for better airflow.
- Colour: Navy Blue.

Applications:

Manufacturing, Warehouse, Logistic, Automotive & Hotels.

WORXwell

SAFETY HELMET
JM701

Standard:

CE EN 397: 2012 + A1: 2012
MSB certified

Descriptions:

- Premium grade ABS.
- Cotton sweatband.
- Extended peak for added protection and an edge gutter to catch and deflect rain.
- Ratchet adjustable headband with 6 points suspension.
- Slots (30mm) for accessories.
- Colours available (white, red, yellow, blue and orange).

Applications:

Construction, Manufacturing, Utilities, Road Works & Infratructures, General Maintenance, Logistic, Automotive & Hotels.

SAFETY HELMET
RADIUS

Standard:

EN 397: 2012+A1: 2012 Industrial Safety Helmet
EN 50365:2002 1000V a.c. / 1500V d.c.
MSB certified

Descriptions:

- ABS shell.
- Un-vented.
- Standard peak (2.5 cm).
- 6-point textile suspension harness.
- Ratchet adjustable headband.
- Fleece sweatband.
- Slots (30mm) for accessories.
- Colours available (orange, white, yellow, red, blue & green).

Applications:

Construction, Manufacturing, Utilities, Road Works & Infratructures, General Maintenance, Logistic, Automotive, Hotels & Electrical.

ELECTRICAL HELMET INTEGRATED ARC FLASH FACESHIELD
E-One

Standard:

EN 397: 2012+A1: 2012
EN 50365:2002 1000V a.c. / 1500V d.c.
GS-ET-29: APC1
EN 166: 2001 EN 170: 2002
MSB certified

Descriptions:

- Double-shell construction.
- Integrated visor.
- Four-point chinstrap.
- Retractable clear Arc Flash (5 kA) visor.
- Colours available (white, yellow, red & blue).

Applications:

Electrical.

PENTA FAMECA

ELECTRICAL HELMET INTEGRATED ARC FLASH FACESHIELD

E-SHARK

Standard:

GS-ET-29: APC1 (Class 1: 5 kA)

Descriptions:

- ABS shell.
- 6 points head harness.
- 4 points chinstrap.
- Compact & ergonomic design.
- Mounting notch for accessories.
- Anti fog & anti scratch retractable visor.
- Adjustable sizing (ratchet).

Applications:

Electrical.

PETZL

CLIMBING HELMET

VERTEX VENT

Standard:

EN 397: 2012+A1: 2012
EN 12492
ANSI Z89.1 Type I Class C
MSB certified

Descriptions:

- Comfortable fit.
- Ventilated design.
- Dual chinstrap mode.
- Shock absorption.
- Accessory-compatible.
- Durable & lightweight.
- Available in 7 colors.

Applications:

Work at Height, Sports & Rescue.

FACE PROTECTION

WORXwell

FACE SHIELD

JF 501 (Clear)
JF 502 (Mesh Forestry)

Standard:

EN 166: 2001 (Clear)
EN 1731: 2006 (Mesh)
MSB certified

Descriptions:

- The face shield is made with polycarbonate brow guard and it eliminates forehead injury
- 8" x 12" metal wire mesh visor for protection against forestry operations.
- Clear visor provides protection against foreign particles, chemical splash and dust.

Applications:

Forestry, Landscaping & Outdoor maintenance tasks.

WORXwell

WELDING FACE SHIELD

JH 901

Standard:

CE EN 175 : 1997
ANSI Z87.1
MSB certified

Descriptions:

- Large helmet, suitable for use in dockyards and construction.
- Lightweight, comfortable external handle is the feature of this welding helmet.
- Optimum protection for arc welding.
- Easy to use with flip front welding glass lens.
- Window size: 2"x4.25"(50mmx108mm).

Applications:

Metal fabrication & Welding.

EYE PROTECTION

WORXwell

SAFETY GOGGLES
SG271

Standard:

EN 166: 2001
MSB certified

Descriptions:

- Lens built in highly resistant polycarbonate.
- Anti scratch & anti fog lens.
- The lens provide maximum comfort and peripheral vision.
- Comfortable soft frame and wide headband.
- Lens enhance with an anti-fog treatment.
- Impact protection.

RILEY

SAFETY EYEWEAR
LIGERA

Standard:

EN166:2001
EN170:2002
EN172:1994+A1:2000+A2:2001
MSB certified

Descriptions:

- Super lightweight 16.5g polycarbonate lens.
- Sleek sports design – 10 base curve & integral nose piece.
- Dual moulded temples with TPE temple ends for maximum fit and comfort.
- Anti-scratch and anti-fog dual coated.
- UV400 lenses.
- Panoramic lenses offer full wraparound protection and optimum vision.
- High-impact resistance under extremes of temperature (-5-55°C).

Honeywell

SAFETY EYEWEAR MILLENNIA SILVER MIRROR

1000005

Standard:

EN166:2001
EN170:2002
EN172:1994+A1:2000+A2:2001
MSB certified

Descriptions:

- Stylish wraparound design offering extended eye coverage.
- Silver mirror lens reduces glare in bright environments.
- Provides 100% UV protection.
- High-impact resistant polycarbonate lens.
- Scratch-resistant polycarbonate lenses.

Honeywell

SAFETY EYEWEAR

A700

Standard:

EN 166: 2001
EN 170: 2002
EN 172: 2001
MSB certified

Descriptions:

- Clear / gray frame, indoor / outdoor mirror lens, anti-scratch lens coating.
- Lightweight design and flexible frame fits a variety of face shapes.
- Wrap-around polycarbonate lens provides 99.9% UV protection.
- Soft temple tip pads provide a secure fit.
- Meets both ANSI Z87+ and CSA Z94.3 standards.
- General purpose.
- Color: Clear / Gray.
- Size: One size fits mos.

EYEWASH & SHOWER FLOOR MOUNTED

4220

Standard:

EN 15154-1:2006 EN 15154-2:2006

Descriptions:

- Galvanized steel piping and brass fittings.
- Anti-corrosive polyamide 11plastic in high-visibility yellow color.
- Shower head in ABS plastic.
- Regulated at 110 l/min.
- Operation: Pull rod.
- Materials: Eyewash assembly and eyewash bowl in ABS plastic.
- Two high-flow aerated water sprays at low pressure with automatic opening anti-dust cover.
- Flow rate: Regulated at 22 l/min.
- Operation: Push handle.

Applications:

Chemical, Manufacturing & Construction.

EYEWASH WALL MOUNTED

2210

Standard:

EN 15154-2:2006
ANSI Z358.1

Descriptions:

- Galvanized steel piping and brass fittings.
- Anti-corrosive polyamide 11 plastic in high-visibility yellow color.
- Eyewash assembly and eyewash bowl in ABS plastic.
- Two high-flow aerated water sprays at low pressure with automatic opening anti-dust cover.
- Flow rate: Regulated at 22 l/min.
- Operation: Push handle.

Applications:

Chemical, Manufacturing & Construction.

HEARING PROTECTION

Honeywell

EARMUFF VERISHIELD VS130M

1035188-VS

Standard:

EN 352-1: 2002
MSB certified

Descriptions:

- High noise reduction SNR 35 dB.
- Comfortable design.
- Memory foam ear cushions.
- Durable construction.
- Multiple position headband.

Applications:

Construction & Manufacturing Industries.

Honeywell

CAP-MOUNTED EARMUFF VERISHIELD VS120DH

1035206-VS

Standard:

EN 352-2: 2002
MSB certified

Descriptions:

- Noise reduction: SNR 31 dB.
- Helmet-mounted design.
- Comfortable fit.
- Memory foam cushions.
- Durable construction.

Applications:

Construction & Manufacturing Industries.

WORXwell

EARMUFF
JE206

Standard:

EN – 352-1: 2002
MSB certified

Descriptions:

- Noise reduction: SNR 20 dB.
- Made up of durable & lightweight material.
- Adjustable headband.
- Flexibility to wear & superior hearing protection in any work environment.

Applications:

Construction & Manufacturing Industries.

Honeywell

DISPOSABLE EARPLUGS CORDED
LaserLite

Standard:

EN 352-2
MSB certified

Descriptions:

- High noise reduction SNR 35 dB.
- Vibrant colors.
- Comfortable fit.
- Easy handling.
- Hygienic design.
- Convenient cord.

Honeywell

REUSABLE EARPLUGS CORDED

Quiet

Standard:

EN 352-2
MSB certified

Descriptions:

- Noise reduction: SNR 28 dB.
- Patent no-roll design is easy to handle and fit.
- Contoured shape provides a close fit in the ear canal.
- Integrated stem makes insertion quick and easy.
- Supplied in pairs in a plastic storage case.

Honeywell

REUSABLE EARPLUGS CORDED

Airsoft

Standard:

EN 352-2
MSB certified

Descriptions:

- Noise reduction SNR 30 dB.
- Four-flange design features noise-blocking fins that eliminate "plugged up" feeling, create a better more comfortable seal, and provide optimal protection.
- Patented internal air cushion features rounded flanges and tapered shape that fits better in the ear canal.
- Corded for easy carrying around neck.
- Includes carrying case for easy storage.

RESPIRATORY PROTECTION

HALF MASK THERMOPLASTIC 4000 NEXT R

8002111

Standard:

EN 140:1998 + AC: 1998
MSB certified

Descriptions:

- Lightweight design.
- Durable material: Made from soft thermoplastic elastomer for flexibility and resilience.
- Secure bayonet connection (B-lock).
- Drop-off system.
- Adjustable head harness.
- Easy maintenance.
- Size availability: Available in S/M and M/L to ensure a proper fit for various face shapes.
- Filter compatibility: Compatible with BLS 200 and BLS 201 series filters for protection against gases, vapors, and particles.

Applications:

Waste Management, Construction, Manufacturing & Chemical Industry.

HALF MASK SILICONE 4000 NEXT S

8002113

Standard:

EN 140:1998 + AC: 1998
MSB certified

Descriptions:

- Lightweight design.
- Durable material: Made from soft silicone elastomer for flexibility and resilience.
- Secure bayonet connection (B-lock).
- Drop-off system.
- Adjustable head harness.
- Easy maintenance.
- Size availability: Available in S/M and M/L to ensure a proper fit for various face shapes.
- Filter compatibility: Compatible with BLS 200 and BLS 201 series filters for protection against gases, vapors, and particles.

Applications:

Waste Management, Construction, Manufacturing & Chemical Industry.

FULL FACE MASK 5600 THERMOPLASTIC TWIN FILTER

8001083

Standard:

EN 136: 1998 + AC: 2003 Class II
EN 148-1: 2019
MSB certified

Descriptions:

- High-quality face seal.
- Panoramic visor (polycarbonate).
- Six-point head harness.
- Dual inhalation valves.
- Bayonet connection (B-Loc).
- Anti-fog design.
- Robust construction.
- Communication: speech diaphragm.

Applications:

Waste Management, Construction, Manufacturing & Chemical Industry.

FULL FACE MASK 5400 SILICONE

8001039

Standard:

EN 136: 1998 + AC: 2003 Class III
EN 148-1: 2019
MSB certified

Descriptions:

- Compatible with BLS 400 filters.
- LiveVisor (Panoramic).
- Anti-condensation system.
- Universal connection RD40.
- Anti-fog design.
- Communication: speech diaphragm.

Applications:

Construction, Manufacturing & Firefighting.

FULL FACE MASK 2150 POLYCARBONATE VISOR

8102015

Standard:

EN 136: 1998 + AC: 2003
EN 148-1: 2019
MSB certified

Descriptions:

- Material: Made from durable thermoplastic rubber.
- Universal connection RD40.
- Anti-fog design.
- Glass visor.
- Dual exhalation valve.
- Six-point harness.
- Communication: Phonic membrane.

Applications:

Waste Management, Construction, Manufacturing & Chemical Industry.

FULL FACE MASK 2150V GLASS VISOR

8102016

Standard:

EN 136: 1998 + AC: 2003
EN 148-1: 2019
MSB certified

Descriptions:

- Durable face seal.
- Universal RD40 connection.
- Anti-fog airflow system.
- Polycarbonate visor.
- Dual exhalation valves.
- Six-point harness.
- Communication: Phonic membrane.

Applications:

Waste Management, Construction, Manufacturing, Chemical Industry & Paint works.

UNIVERSAL CANISTER (RD40)

400 series

Standard:

EN 143:2000 + A1:2006
EN 14387:2004 + A1:2008
MSB certified

Descriptions:

- Universal compatibility (RD40).
- High-quality filtration.
- Durable construction (ABS).
- Versatile protection options.

- A - Organic gases and vapours (Boiling point > 65°C)
- B - Inorganic gases and vapours
- E - Acid gases
- K - Ammonia and derivates
- AX - Organic gases and vapours (Boiling point < 65°C)
- Hg - Mercury vapour
- NO - Nitrous gases
- CO - Carbon oxide
- Reaktor - Radioactive iodine (incl. radioactive iodomethane)
- P - Dust

TWIN FILTER (B-LOCK)

200 series

Standard:

EN 143:2000 + A1:2006
EN 14387:2004 + A1:2008
MSB certified

Descriptions:

- Bayonet connection (B-Lock).
- High-quality activated carbons.
- Tested against formaldehyde.
- 99.99% dust filtration efficiency.
- Durable filter canister.

- A - Organic gases and vapours (Boiling point > 65°C)
- B - Inorganic gases and vapours
- E - Acid gases
- K - Ammonia and derivates
- AX - Organic gases and vapours (Boiling point < 65°C)
- Hg - Mercury vapour
- NO - Nitrous gases
- CO - Carbon oxide
- Reaktor - Radioactive iodine (incl. radioactive iodomethane)
- P - Dust

WORXwell

DISPOSABLE MASK FFP2

7021GDV (FFP2)
7031GDV (FFP3)

Standard:

EN 149: 2001 +A1: 2009
MSB certified

Descriptions:

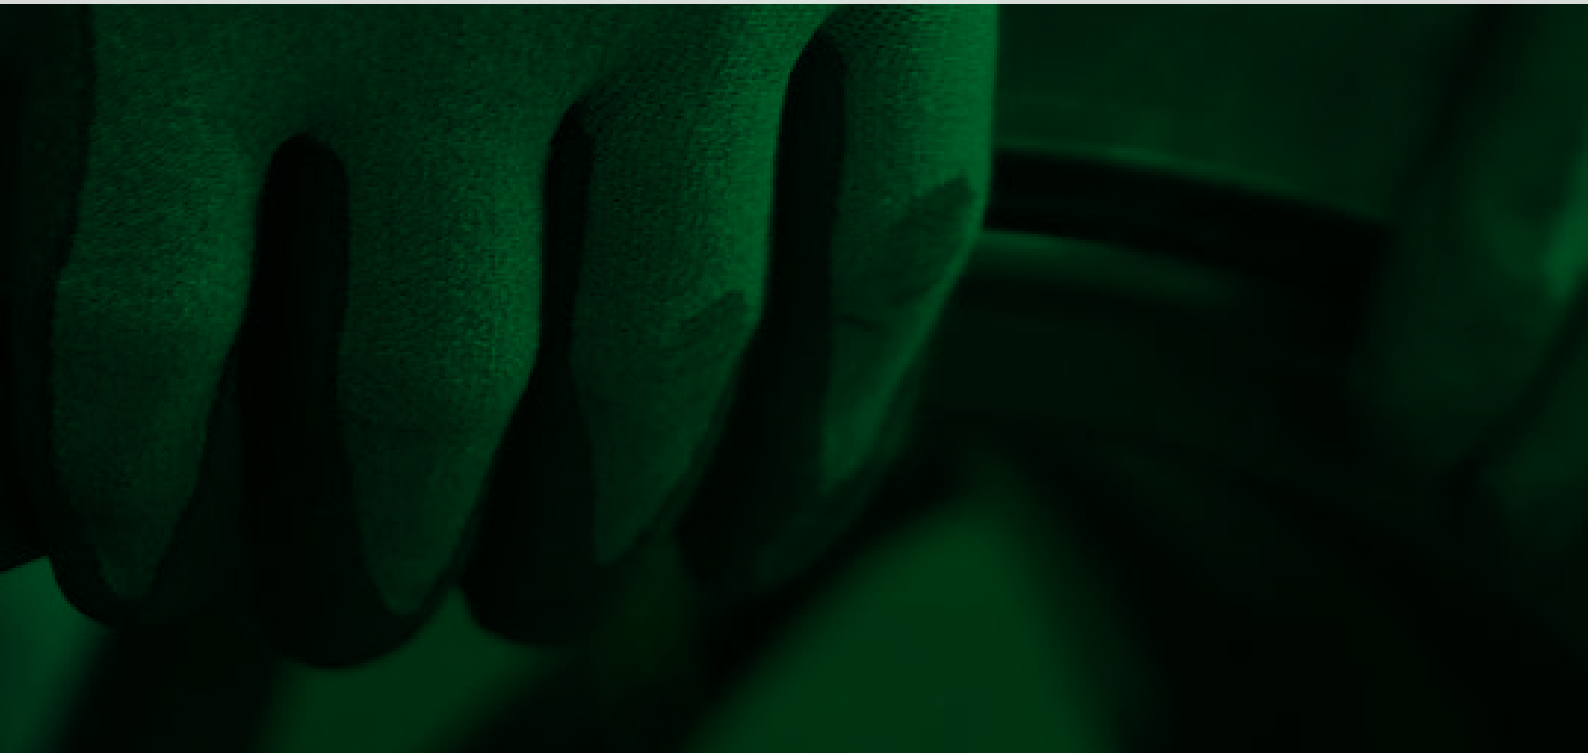

- High filtration efficiency.
- Exhalation valve.
- Adjustable nose clip.
- Elastic straps.
- Filtering efficiency (FFP3: 99% protection | FFP2: 94%).

HAND PROTECTION

Ansell

HIGH DEXTERITY MECHANICAL GLOVES

11-840

Standard:

EN 388:2016 +A1:2018
EN ISO 21420:2020
MSB certified

Descriptions:

- Enhanced durability and grip.
- Ergonomic design.
- Comfort fit.
- Skin-friendly and clean.
- Silicone-free.

Applications:

Automotive, Machinery & Construction.

Ansell

HEAVY DUTY MECHANICAL GLOVES ACTIVARMR

80-100

Standard:

EN 388:2016 +A1:2018
EN ISO 21420:2020
MSB certified

Descriptions:

- Enhanced grip with crinkle-finish latex coating.
- Durable natural rubber latex construction.
- Comfortable knitted cotton and polyester liner.
- Ideal for handling rough materials and assembly tasks.

Applications:

Heavy equipment handling, Construction & Industrial manufacturing.

Ansell

ANTI-CUT MECHANICAL GLOVES
11-724

Standard:

EN 388:2016 +A1:2018
EN ISO 21420:2020
MSB certified

Descriptions:

- Cut protection with INTERCEPT™ Technology.
- High abrasion resistance.
- Polyurethane coating for enhanced grip.
- Lightweight and comfortable fit.
- Silicone-free for industrial applications.
- Suitable for precision handling and assembly.

Applications:

Automotive, Metal fabrication, Construction & Heavy equipment handling.

Ansell

WELDING LEATHER GLOVES ACTIVARMR
43-216

Standard:

EN 12477 Type A : 2001 + A1:2005
EN 388:2016 +A1:2018
EN 407:2020
EN ISO 21420:2020
MSB certified

Descriptions:

- Three-dimensional thumb design.
- Premium split cowhide leather.
- Kevlar®-sewn welted seams.
- Long cuffs with cotton liners.
- Cotton-lined interior.
- Suitable for welding, cutting, and grinding.

Applications:

Metal fabrication & Welding.

Ansell

MULTIRISK GLOVES ALPHATEC
58-535W

Standard:

EN 388:2016 +A1:2018
EN 407:2020
EN ISO 374-1: 2016 Type A
EN ISO 374-5: 2016
MSB certified

Descriptions:

- Nitrile barrier protection.
- Enhanced grip technology.
- Comfortable cotton liner.
- Chemical and liquid resistance.
- Extended cuff for added protection.
- High dexterity and flexibility.
- Suitable for various industrial applications.

Applications:

Chemical, Waste Management & Industrial cleaning.

Ansell

CHEMICAL GLOVES ALPHATEC
37-501

Standard:

EN 388:2016 +A1:2018
EN 374-1: 2016 Type A
EN 374-5: 2016
MSB certified

Descriptions:

- Nitrile gloves offering protection against a wide range of chemicals.
- Designed with a cotton-flocked liner for enhanced comfort.
- High abrasion resistance for extended durability.
- Good grip in wet and dry environments.
- Flexible and comfortable for prolonged use.

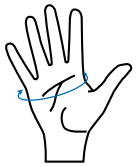

Applications:

Chemical, Agriculture, Laboratory & Food processing.

FIND THE RIGHT GLOVE SIZE (ANSELL CHART)

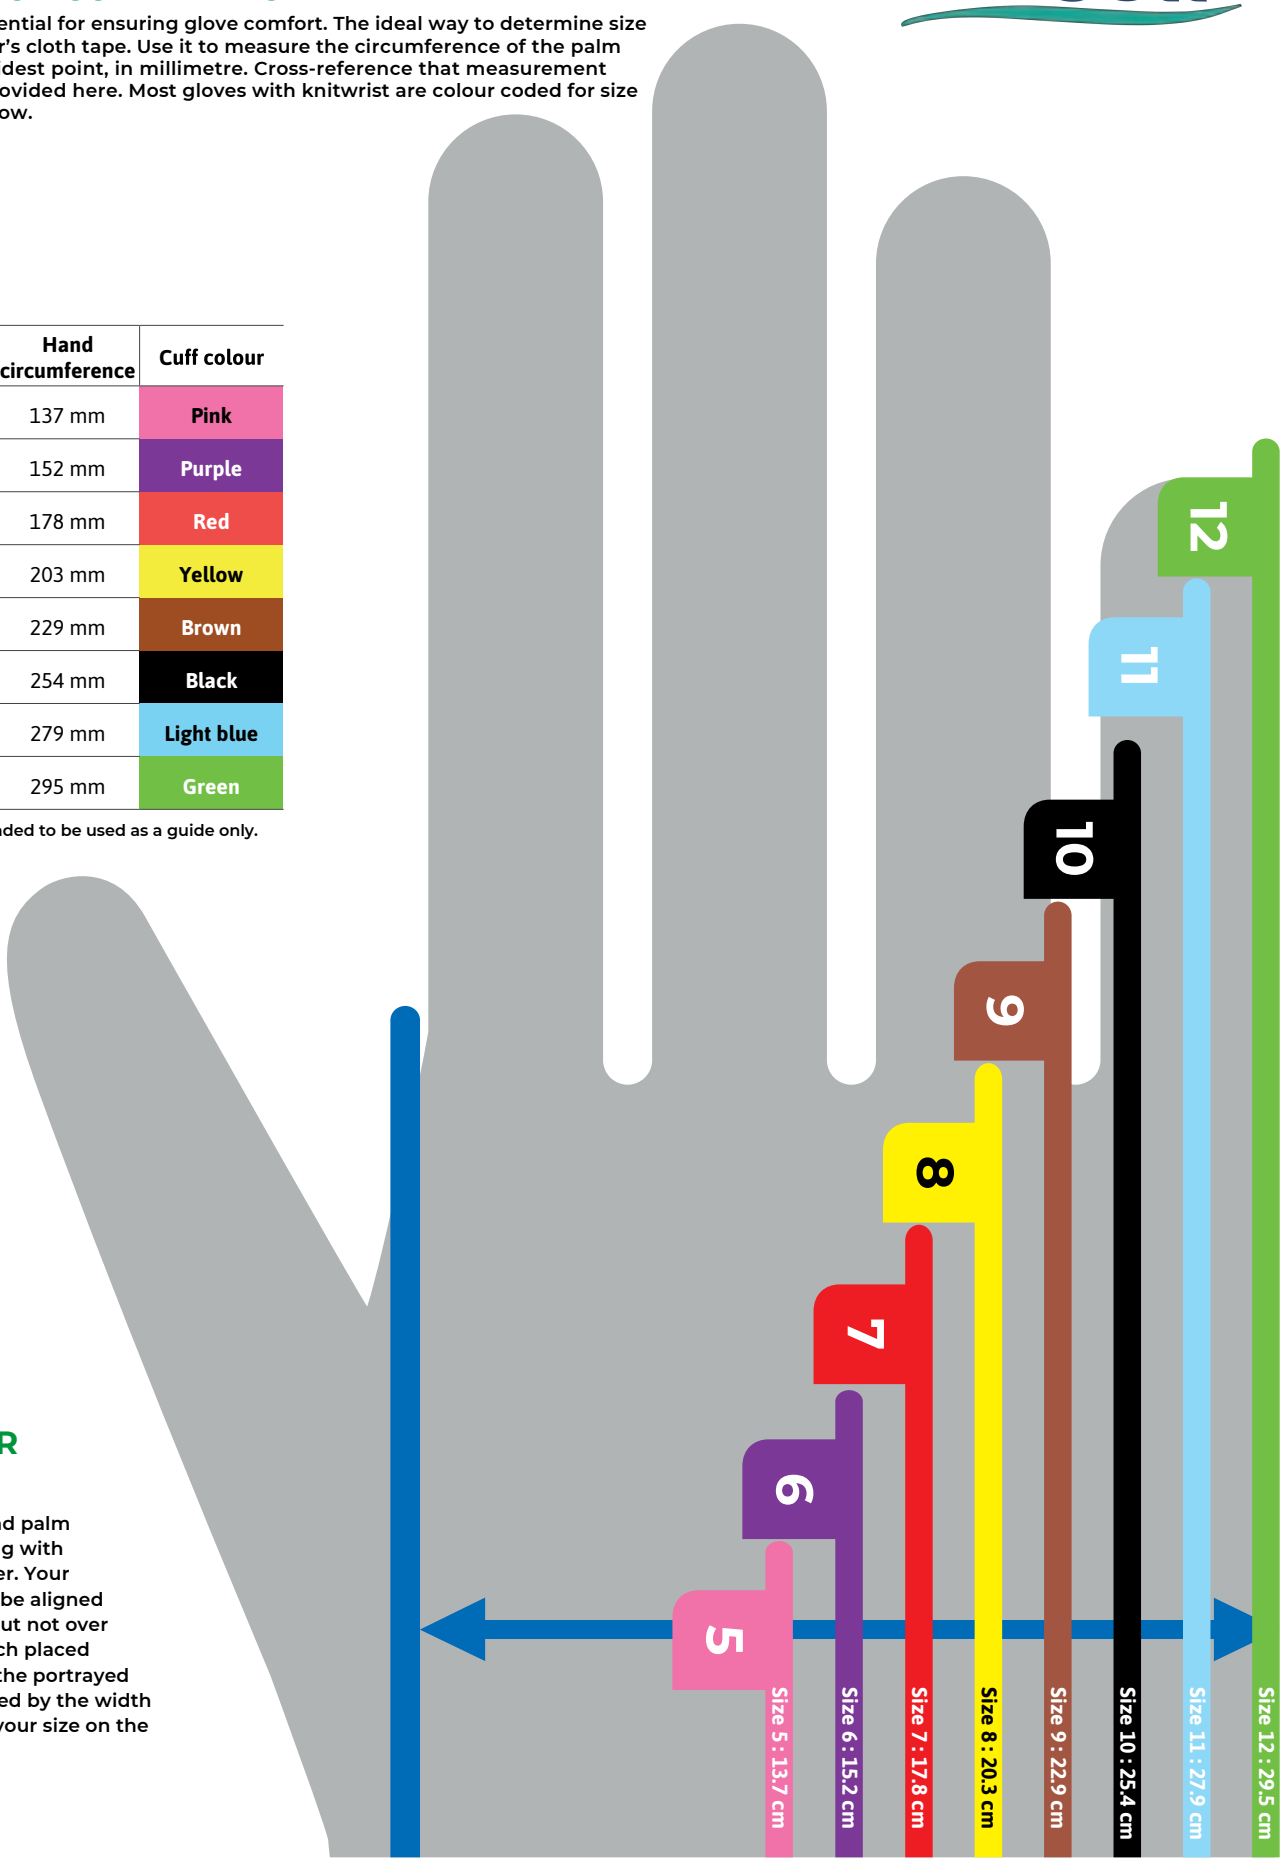

METHOD 1 - CIRCUMFERENCE

Correct sizing is essential for ensuring glove comfort. The ideal way to determine size is with a dressmaker's cloth tape. Use it to measure the circumference of the palm of the hand at its widest point, in millimetre. Cross-reference that measurement against the table provided here. Most gloves with knitwrist are colour coded for size identification as below.

	Size	Hand circumference	Cuff colour
XXS	5	137 mm	Pink
XS	6	152 mm	Purple
S	7	178 mm	Red
M	8	203 mm	Yellow
L	9	229 mm	Brown
XL	10	254 mm	Black
XXL	11	279 mm	Light blue
XXXL	12	295 mm	Green

Note: This chart is intended to be used as a guide only.

METHOD 2 - CHECK YOUR GLOVE SIZE

Place your right hand palm down on the drawing with your fingers together. Your index finger should be aligned with the blue line (but not over it), your thumb crotch placed correspondingly to the portrayed hand. Size is indicated by the width of your hand. Read your size on the coloured lines.

PENTA FAMECA

ELECTRICAL GLOVES ELECTROVOLT

GLE

Standard:

EN 60903:2003
IEC 60903:2014
MSB certified

Descriptions:

- Natural rubber latex material.
- Class 00 up to 4.
- Maximum operating voltage: 0.5 kV up to 36 kV.
- Ergonomic shape with lightly powdered interior.
- Length: Approximately 360 mm.
- Recommended use with leather over-gloves for added protection.

Applications:

Electrical.

TE TARWAY EXPORTS PVT LTD

LEATHER GLOVES

TE-153R

Standard:

EN 388 3133X
MSB certified

Descriptions:

- Heavy-duty glove offering high resistance to molten splashes.
- Suitable for tasks requiring durability and protection against cuts, punctures, and abrasions.
- Available with an 8 cm cuff for added protection.
- White cow leather gloves.

Applications:

Automotive, Metal fabrication, **Construction & Heavy equipment handling.**

BODY PROTECTION

DUPONT Tyvek®

DISPOSABLE COVERALL TYVEK
500 Xpert

Standard:

Category III, Type 5-B & 6-B
EN 14126
EN 1073-2
EN 1149-5
MSB certified

Descriptions:

- Made from Tyvek® material.
- Protection against fine particles and liquid splashes.
- Breathable yet durable fabric.
- Elasticated wrists, ankles, and hood for a secure fit.
- Antistatic and low-linting properties.

Applications:

Chemical, Hygiene control, Pesticide application & General industrial cleaning.

Ansell

APRON
PVC-45G/W

Standard:

EN 14605: 2005 +A1: 2009'
EN 13688: 2013
MSB certified

Descriptions:

- Material: High-quality PVC.
- Resistance: Chemical, oil, and acid resistant.
- Design: Comfortable and flexible for ease of movement.
- Length: Full-body coverage from chest to knees.
- Durability: Abrasion-resistant for long-term use.

Applications:

Chemical, Laboratory & Sanitation services.

FOOT PROTECTION

GIASCO SAFETY SHOES

SAFETY SHOES LOW CUT FOX S3

3M453N

Standard:

EN ISO 20345: 2022 S3 SRC ESD
IEC 61340-4-3:2017
MSB certified

Descriptions:

- Low-cut safety shoes with S3 protection.
- Water-resistant leather upper.
- Composite toe cap for lightweight protection.
- Anti-puncture, slip-resistant sole.
- Shock-absorbing heel for comfort .
- Antistatic properties.
- Made in Italy.

Applications:

Electrical, Automotive, Telecommunications & electronics (ESD).

GIASCO SAFETY SHOES

SAFETY SHOES TIGER S3

3M457N

Standard:

EN ISO 20345: 2022 S3 SRC ESD
IEC 61340-4-3:2017
MSB certified

Descriptions:

- High-cut safety shoes with S3 protection.
- Water-resistant leather upper.
- Composite toe cap for lightweight protection.
- Anti-puncture, slip-resistant sole.
- Shock-absorbing heel for comfort.
- Antistatic properties.
- Made in Italy.

Applications:

Electrical, Automotive, Telecommunications & electronics (ESD).

GIASCO SAFETY SHOES

SAFETY SHOES EDISON
HRD060D

Standard:

EN ISO 20345: 2022 SB FO E P CI HI WRU HRO SRC
CSA Z195-14
ASTM F2413-11
MSB certified

Descriptions:

- Electrical resistance to 20.000V.
- High safety shoe, WRU back leatherand heel in anti-scratch leatherthickness 1,8-2,0 mm, with refractingfabric insert.
- Perspiring and abrasion resistantfabric lining.
- Soft, lined and padded tongue.
- Made in Italy.

Applications:

Electrical, Cold environments -17°C & Industrial maintenance.

GIASCO SAFETY SHOES

SAFETY SHOES MAKALU S7L FO CI SR
3C058G

Standard:

EN ISO 20345:2022 S7L FO CI SR
MSB certified

Descriptions:

- Completely metal free shoe.
- High safety shoe, water-resistant IDROTECH®WPA oiled grain leather thickness 1,8-2,0 mm,with refracting fabric insert.
- Anti-slip & hydrocarbon resistance.
- Shock absorption & stability.
- Cold insulation up to -17°C.
- Made in Italy.

Applications:

Heavy industry, Logistics & Construction.

GIASCO SAFETY SHOES

SAFETY SHOES VERDI S3
AC880BP

Standard:

EN ISO 20345: 2022 S3 SRC
MSB certified

Descriptions:

- Low-cut safety shoes with S3 protection.
- Water-resistant leather upper.
- Composite toe cap for lightweight protection.
- Anti-puncture, slip-resistant sole.
- Shock-absorbing heel for comfort.
- Antistatic properties.
- Made in Italy.

Applications:

Construction, Manufacturing, Logistics, Heavy industry & Agriculture.

GIASCO SAFETY SHOES

SAFETY SHOES LOW CUT YORK S3
KU061D

Standard:

EN ISO 20345: 2022 S3 SRC
MSB certified

Descriptions:

- Water-repellent full grain leather.
- Anti-perforation textile midsole.
- Composite toe cap.
- Anti-slip SRC sole.
- Shock absorption heel.
- Anti-static properties.
- Breathable lining.
- Metal-free.
- S3 safety category.
- Made in Italy.

Applications:

Warehousing, Automotive & Manufacturing.

FALL PROTECTION

KARAM

FULL BODY 1 PT HARNESS WITH INTEGRATED DOUBLE LANYARD

PN10(S)+PN361

Standard:

EN 358: 2018
EN 361: 2002
EN 355: 2002
MSB certified

Descriptions:

- Full-body harness for fall protection.
- Single attachment point for secure anchoring.
- Integrated double lanyard for enhanced safety.
- Energy absorber to reduce impact force.
- Adjustable straps for a comfortable fit.
- Durable and high-strength webbing.
- Ideal for construction and industrial use.

Applications:

Work at Height.

KARAM

FULL BODY 2 PT HARNESS

PN24

Standard:

EN 358: 2018
EN 361: 2002
MSB certified

Descriptions:

- Full-body harness with two attachment points.
- Designed for fall protection and safety compliance.
- Adjustable shoulder, chest, and thigh straps.
- High-strength webbing for durability.
- Ergonomic design for comfort and mobility.
- Suitable for construction, maintenance, and industrial work.

Applications:

Work at Height.

KARAM

DOUBLE SHOCK ABSORBING LANYARD

PN361

Standard:

EN 355: 2002
ISO 9150: 1988
EN ISO 15025: 2002
EN 1149-5: 2008
MSB certified

Descriptions:

- Double lanyard for enhanced fall protection.
- Equipped with energy absorber for impact reduction.
- High-strength webbing for durability and safety.
- Features two scaffold hooks for secure attachment.
- Designed for use with full-body harnesses.
- Ideal for construction, maintenance, and industrial applications.

Applications:

Work at Height & Restraint.

KARAM

RETRACTABLE FALL ARRESTER BLOCK

MIC 02

Standard:

EN 360: 2002
DIN 19427: 2017
MSB certified

Descriptions:

- Retractable fall arrester for enhanced safety.
- Provides controlled fall arrest with quick activation.
- Durable casing for long-lasting performance.
- High-strength webbing or galvanized steel cable.
- Swivel anchorage eye for easy movement.
- Ideal for working at heights in construction and industrial environments.

Applications:

Work at Height.

FULL BODY 5 PT HARNESS
ASTRO FAST

Standard:

EN 361:2002
EN 358:2018
EN 813:2008
MSB certified

Descriptions:

- Full-body harness with 5 adjustment points.
- Fast automatic buckles for quick donning.
- Integrated ventral attachment point for rope access.
- Comfortable and ergonomic design for prolonged use.
- Multiple gear loops for tool attachment.
- Ideal for rope access, rescue, and fall arrest scenarios.

Applications:

Work at Height, Sports & Rescue.

FULL BODY 5 PT HARNESS
AVAO FAST

Standard:

EN 361:2002
EN 358:2018
EN 813:2008
MSB certified

Descriptions:

- Full-body harness with 5 adjustment points.
- Fast automatic buckles for easy wearing.
- Comfortable design for extended use.
- Ventral attachment point for rope access.
- Multiple gear loops for tool attachment.
- Suitable for work at height and fall protection.

Applications:

Work at Height, Sports & Rescue.

DOUBLE LANYARD
ABSORBICA-Y MGO

Standard:

EN 355:2002
MSB certified

Descriptions:

- Dual lanyard design.
- Energy absorber.
- Adjustable length.
- Durable materials.
- Certified safety.
- Compact & lightweight.

Applications:

Work at Height, Sports & Rescue.

ADJUSTABLE POSITIONING LANYARD
GRILLON

Standard:

EN 358: 2018
EN 795: 2012
EN 12841: 2006
MSB certified

Descriptions:

- Adjustable length.
- Ergonomic design.
- High-strength construction.
- Comfortable for extended use.
- Integrated shock-absorber for safety.
- Available length: 2m or 3m.

Applications:

Work at Height, Sports & Rescue.

PETZL

CARABINER

Standard:

EN 362: 2004
EN 12275: 2013
UIAA 121: 2018
MSB certified

Descriptions:

- Tri-action locking mechanism.
- Lightweight and compact design.
- High-strength aluminum construction
- Keylock system to prevent snagging.
- Easy handling with large opening.
- Available in screw or triact lock.

Applications:

Work at Height, Sports & Rescue.

3M

LIFELINE SYSTEM

Uni 8™

Standard:

EN795:2012 Type C

Descriptions:

- The Uni 8™ Overhead Horizontal Lifeline System is a unique fall protection safety product. It offers both fall arrest and restraint capabilities using a 8mm stainless steel cable (1x19), which is secured to a structure using a range of anchorage fittings.
- Free running attachment carriage ensures complete freedom of travel and therefore ease of movement for the user.
- Sealed bearings in the carriage wheels reduce the need for maintenance.

Applications:

Fall Arrest System.

COLD ROOM

FlexiTog

DETACHABLE HOOD
FH762

Standard:

CE CAT 1: Minimum risk

Descriptions:

- Insulated detachable hood for enhanced warmth and protection.
- Designed for compatibility with FlexiTog jackets.
- Adjustable fit for improved comfort and coverage.
- Wind-resistant and water-resistant outer fabric.
- Durable construction for long-lasting performance.
- Easy attachment and removal for convenience.

Applications:

Cold Room.

FlexiTog

BALACLAVA
FH92

Standard:

CE CAT 1: Minimum risk

Descriptions:

- Thermal balaclava for ultimate warmth and protection.
- Designed for extreme cold environments and outdoor work.
- Soft, breathable fabric for comfort during extended wear.
- Full head, neck, and face coverage for maximum insulation.
- Moisture-wicking properties to keep skin dry.
- Stretchable material for a secure and comfortable fit.

Applications:

Cold Room.

COLD ROOM JACKET
X28JP

Standard:

EN 342: 2017
MSB certified

Descriptions:

- High-performance insulated jacket for extreme cold environments.
- Designed for use in cold storage, freezers, and outdoor work.
- Superior thermal insulation for warmth and comfort.
- Durable, windproof, and water-resistant outer shell.
- Breathable fabric to prevent overheating and moisture buildup.
- Adjustable cuffs and high collar for added protection.
- Multiple pockets for convenience and storage.
- Ergonomic design for ease of movement and flexibility.

Applications:

Cold Room.

COLD ROOM SALOPETTES
X28S

Standard:

EN 342: 2017
MSB certified

Descriptions:

- Heavy-duty insulated salopettes for extreme cold environments.
- Ideal for cold storage, freezers, and outdoor work.
- High-performance thermal insulation for maximum warmth.
- Windproof and water-resistant outer shell for added protection.
- Adjustable shoulder straps for a secure and comfortable fit.
- Reinforced knees for durability and flexibility.
- Breathable fabric to reduce moisture buildup.
- Ergonomic design for ease of movement.

Applications:

Cold Room.

FlexiTog

THERMAL LONG JOHN
X50LJ

Standard:

CE CAT 1: Minimum risk

Descriptions:

- High-performance thermal base layer for cold environments.
- Soft and breathable fabric for maximum comfort.
- Provides excellent insulation to retain body heat.
- Moisture-wicking properties to keep skin dry and warm.
- Elasticated waistband for a secure and comfortable fit.
- Lightweight and flexible for unrestricted movement.

Applications:

Cold Room.

BLACKROCK

COLD GLOVES
THERMOTITE 54311

Standard:

EN 388 4231X
EN 420
EN 511 X2X

Descriptions:

- Sandy nitrile palm for excellent dry, wet and oil conditions.
- Breathable 7 gauge thermal terry liner for warmth.
- Elastic wrist for secure fit.

Applications:

Cold Room.

ACCESS

JLG
An Oshkosh Corporation Business

SCISSOR LIFT

Standard:

Machinery Inspection Certificate

Descriptions:

- Vertical lift platform for elevated work access.
- Compact and maneuverable design for tight spaces.
- Available in electric and engine-powered models.
- High weight capacity for multiple workers and tools.
- Slip-resistant platform with safety rails.
- Suitable for indoor and outdoor use.
- Smooth, stable lifting mechanism for precision work.
- Ideal for construction, maintenance, and warehouse applications.

Applications:

Mobile Elevated Work Platform (MEWP).

*Rental service only

JLG
An Oshkosh Corporation Business

BOOM LIFT

Standard:

Machinery Inspection Certificate

Descriptions:

- Versatile aerial work platform for elevated access.
- Available in both articulating and telescopic models.
- Provides extended reach and precise positioning.
- Designed for indoor and outdoor use.
- Diesel, electric, and hybrid power options available.
- Equipped with advanced safety features and controls.
- High weight capacity for tools and personnel.
- Ideal for construction, maintenance, and industrial applications.

Applications:

Mobile Elevated Work Platform (MEWP).

*Rental service only

ALUMINIUM MOBILE SCAFFOLD

TYPE 46 series
TYPE 47 series

Standard:

ÖNORM B 4007
ÖNORM HD 1004

Descriptions:

- Platform height: 2.5m up to 11.2m.
- Max load capacity: 500kg (200kg per m^2).
- Lightweight aluminum construction.
- Strong and durable design.
- Height adjustable.
- Easy to assemble and disassemble.
- Non-slip platforms.
- Locking castors for stability and mobility.
- Compact design for easy storage and transport.

2-PART EXTENSION LADDER

R-200 series

Standard:

EN 131-1: 2011
EN 131-2: 2012

Descriptions:

- Folded length - 1.97m up to 4.21m.
- Extended length - 3.16m up to 7.30m.
- Ladder width - 42cm.
- Sturdy and durable 2-part extension ladder.
- Smooth height adjustment for versatile use.
- Lightweight yet strong construction for easy handling.
- Non-slip rungs for secure and stable footing.
- Wide base for enhanced stability and support.
- Corrosion-resistant materials for long-lasting performance.
- Suitable for indoor and outdoor applications.
- Ideal for maintenance, construction, and general access tasks.

PLATFORM LADDER

TYPE 73 series

Standard:

EN 131-1: 2011
EN 131-2: 2012

Descriptions:

- Ladder length - 1,44m up to 3.69m.
- Platform height - 0.69m up to 2.82m.
- Step width of 85mm.
- Access from one side of the A-frame.
- High guard beam provides a secure working space.
- Large standing platform locks the ladder into working position, ensuring both long-standing comfort and safety (see image).
- Models 73-006 to 73-012 are built with additional tear resistant spreading restraints.

ALUMINIUM LEANING LADDER

R-100 series

Standard:

EN 131-1: 2011
EN 131-2: 2012

Descriptions:

- Ladder length - 1.96m up to 5.32m.
- Ladder width - 36 cm.
- Plastic anti-slip safety feet and top end-caps ensure firm positioning during use.
- Models R-112 to R-118 include a tabiliser bar.
- Optimal price/performance ratio.
- Built with anti-slip rungs which are CMT welded into specially designed double-walled, hollow-profile beams.
- Includes plastic anti-slip safety feet and top end-caps to ensure firm positioning during use.

GAS DETECTION

Honeywell

PORTABLE DETECTOR
MicroClip X3

Standard:

CE, ATEX Approval: IECEx/ATEX (II 1G Ex ia IIC T4), IP65

Descriptions:

- 4-Gas detector (H2S, CO, O2, LEL).
- Audible, visual, vibrating alarm.
- Confidence beep.
- 2 or 3-year warranty (as per model).
- Battery runtime of 18 hours.

Applications:

Confined Space Entry, ATEX zones, Waste Management, Manufacturing & Chemical Industry.

Honeywell

PORTABLE DETECTOR
BW Flex 4/5

Standard:

CE, ATEX Approval: IECEx/ATEX (II 1G Ex ia IIC T4), MED Approved, IP66

Descriptions:

- Simultaneous detection of up to 4/5 gases.
- Compact and lightweight design.
- High-visibility display for easy reading.
- Durable and water-resistant construction.
- Long battery life for extended use.
- Bluetooth connectivity for data logging and monitoring.

Applications:

Confined Space Entry, ATEX zones, Waste Management, Manufacturing & Chemical Industry.

Honeywell

PORTABLE DETECTOR
BW Max XTII

Standard:

CE, ATEX Approval: IECEx/ATEX (II 1G Ex ia IIC T4), IP66

Descriptions:

- Simultaneous detection of multiple gases.
- Integrated pump for remote sampling (up to 23m).
- Rugged and water-resistant design.
- High-visibility LCD display.
- Long battery life for extended field use.
- Audible, visual, and vibrating alarms.

Applications:

Confined Space Entry, ATEX zones, Waste Management, Manufacturing & Chemical Industry.

Honeywell

PORTABLE DETECTOR
BW ULTRA

Standard:

CE, ATEX Approval: IECEx/ATEX (II 1G Ex ia IIC T4), IP65

Descriptions:

- Simultaneous detection of up to 5 gases.
- Large high-visibility display.
- Integrated pump for remote sampling (up to 23m).
- Long battery life for extended use.
- Rugged and water-resistant design.
- Advanced sensor technology for accurate readings.
- Audible, visual, and vibrating alarms for safety.

Applications:

Confined Space Entry, ATEX zones, Waste Management, Manufacturing & Chemical Industry.

Honeywell

PORTABLE DETECTOR
ToxiRae Pro

Standard:

CE, ATEX Approval: IECEx/ATEX (II 1G Ex ia IIC T4), IP65

Descriptions:

- Single-gas detection for various hazardous gases.
- Compact and lightweight design.
- Real-time readings with high-visibility display.
- Wireless connectivity for remote monitoring.
- Audible, visual, and vibrating alarms.
- Durable and water-resistant construction.

Applications:

Confined Space Entry, ATEX zones, Waste Management, Manufacturing & Chemical Industry.

Honeywell

PORTABLE DETECTOR
QRae 3

Standard:

CE, ATEX Approval: IECEx/ATEX (II 1G Ex ia IIC T4), IP65

Descriptions:

- Simultaneous detection of up to 4 gases.
- Available with sampling pump or diffusion mode.
- Wireless connectivity for real-time monitoring.
- Rugged and water-resistant design.
- High-visibility display for easy readings.
- Audible, visual, and vibrating alarms for safety.

Applications:

Confined Space Entry, ATEX zones, Waste Management, Manufacturing & Chemical Industry.

Honeywell

FIXED DETECTOR SENSEPOINT
XCD

Standard:

CE, ATEX Approval: IECEx/ATEX (II 1G Ex ia IIC T4), IP65

Descriptions:

- Continuous monitoring of flammable, toxic, and oxygen gases.
- High-visibility LCD display with real-time readings.
- Robust and weather-resistant construction.
- Multiple output options for integration with control systems.
- Easy installation and maintenance.
- Audible and visual alarms for immediate alerts.

Applications:

Confined Space Entry, ATEX zones, Waste Management, Manufacturing & Chemical Industry.

Fixed Gas Detection Controller

INDUSTRIAL SCIENTIFIC

PORTABLE DETECTOR
VENTIS MX4

Standard:

CE, ATEX Approval: IECEx/ATEX (II 1G Ex ia IIC T4), MED Approved, IP65

Descriptions:

- Simultaneous detection of up to 4 gases.
- Compact and lightweight design.
- Rugged and water-resistant construction.
- High-visibility display for real-time readings.
- Long battery life for extended use.
- Audible, visual, and vibrating alarms for safety.

Applications:

Confined Space Entry, ATEX zones, Waste Management, Manufacturing & Chemical Industry.

INDUSTRIAL SCIENTIFIC

PORTABLE DETECTOR
iBRID MX6

Standard:

CE, ATEX Approval: IECEx/ATEX (II 1G Ex ia IIC T4), IP65

Descriptions:

- Simultaneous detection of up to 6 gases.
- Full-color LCD display for clear readings.
- Rugged and water-resistant construction.
- Integrated pump for remote sampling (up to 30m).
- Long battery life for extended use.
- Audible, visual, and vibrating alarms for safety.

Applications:

Confined Space Entry, ATEX zones, Waste Management, Manufacturing & Chemical Industry.

OTHER DETECTORS

ACS

ALCOHOL BREATH TESTER

ALERT J5

Standard:

ISO TS 16949
ISO 9001
ISO 14001,
ISO/IEC 17025
ISO 17034

Descriptions:

- Portable alcohol breath tester.
- ACS technology for accurate readings.
- Digital display for easy result interpretation.
- Fast response and recovery time.
- Compact and lightweight design.
- Suitable for personal and professional use.

Applications:

Law Enforcement, Workplace Safety, Aviation, Maritime, Hospitality, Events & Healthcare.

Cirrus Research plc

SOUND LEVEL METER

OPTIMUS+

Standard:

IEC 61672-1:2013

Descriptions:

- Industrial and environmental noise assessment.
- Measures LAeq, Ln values, LMax, and LMin.
- Simultaneous parameter measurement.
- Class 1 or Class 2 model.
- VoiceTag audio notes and recording.
- Tonal noise detection with octave analysis.

Applications:

Industrial noise monitoring, Environmental noise assessments, Workplace safety compliance & Occupational noise exposure evaluation.

MATTING

plastex

LIGHT WEIGHT SLIP RESISTANT MATTING

Floorline

Standard:

EN13501-1:2007 -Cfl -S1
DIN51130: R11, V10
DIN51097: Classification C
ASTM E303 Dry/Wet with lines along–lines across
72-99 / 59-84

Descriptions:

- Lightweight slip-resistant matting.
- Provides excellent drainage and airflow.
- Comfortable underfoot with anti-fatigue properties.
- Made from durable, flexible PVC.
- Suitable for wet and dry environments.
- Easy to clean and maintain.
- Ideal for workplaces, kitchens, and leisure areas.

Applications:

Industrial sectors, Commercial spaces, Healthcare environments, Food processing areas & Outdoor applications.

plastex

HEAVY DUTY ANTI SLIP MATTING

Vynagrip

Standard:

BS 2782: Part 2 Method 230A
Electric strength = 12,600 volts
EN ISO 13501-1:2007-Cfl-SI
DIN 51130: R11, ASTM 1677: 1.0/0.9

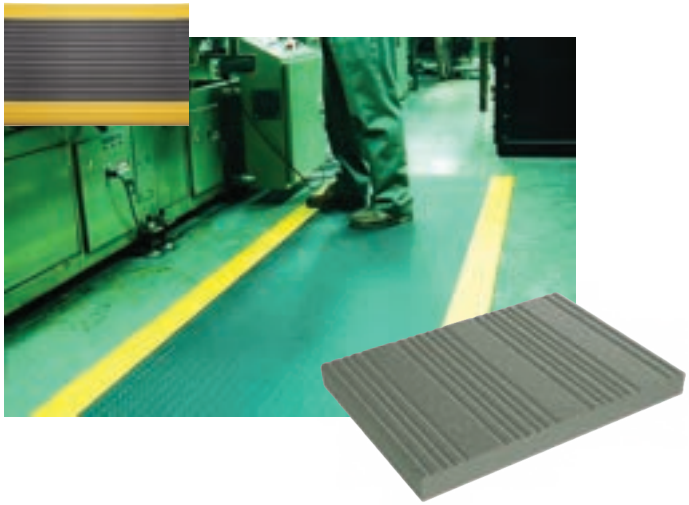

Descriptions:

- Heavy-duty anti-slip matting.
- Provides excellent slip resistance.
- Designed for wet and oily environments.
- Open grid construction for drainage.
- Durable and long-lasting material.
- Resistant to chemicals and oils.
- Ideal for industrial and commercial use.
- Easy to clean and maintain.

Applications:

Industrial, Marine, Automotive, Construction, Public transport & Warehousing.

plastex

ANTI FATIGUE MATTING

Tuff Spun

Standard:

ASTM 4060: <1g loss

Descriptions:

- Provides cushioning and support for comfort.
- Reduces fatigue from prolonged standing.
- Durable and lightweight construction.
- Suitable for dry work environments.
- Slip-resistant surface for safety.
- Easy to install and maintain.
- Ideal for workplaces and industrial settings.

Applications:

Industrial, Manufacturing, Warehousing, Hotels, Gyms & Food processing.

plastex

HEAVY DUTY ENTRANCE MATTING

Frontrunner Plus

Standard:

EN ISO 13501-1:2007-Cfl-S1
ASTM E648 – Class 1

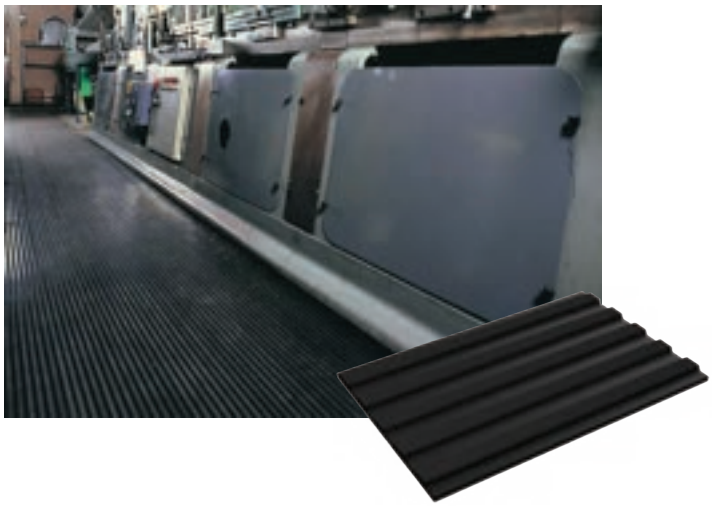

Descriptions:

- Heavy-duty entrance matting for high-traffic areas.
- Effective at removing dirt, debris, and moisture.
- Open-grid design for excellent drainage.
- Slip-resistant surface for added safety.
- Made from durable, long-lasting materials.
- Suitable for indoor and outdoor use.
- Easy to clean and maintain.
- Ideal for commercial and industrial entrances.

Applications:

Commercial entrances, Public facilities, Educational institutions, Healthcare facilities, Hotels & hospitality.

plastex

HEAVY DUTY ELECTRICAL INSULATION MATTING

FlexiTred

Standard:

BS 2782: Part 2 Method 230A.
Electric strength = 20,000 volts
DIN 60243-1 (VDE 0303 part 21): 1999-03

Descriptions:

- Heavy-duty electrical insulation matting.
- Provides protection against electrical hazards.
- Ribbed surface for enhanced grip and slip resistance.
- Durable and wear-resistant material.
- Suitable for use in high-voltage areas.
- Designed for industrial and commercial environments.
- Easy to install and maintain.
- Meets industry safety standards.

Applications:

Electrical & Utilities.

plastex

ANTI SLIP MATTING

Heronrib

Standard:

DIN 51097: C; ASTM 1677: 0.9/0.7

Descriptions:

- Self-draining, slip-resistant matting designed for wet areas with high barefoot traffic.
- Embossed surface provides a strong grip underfoot.
- Constructed from strong, non-porous PVC with channeled underbars for effective drainage.
- Anti-microbial and anti-fungal properties ensure excellent hygiene.
- Flexible and easy to cut on-site to fit any application.
- UV resistant; however, the red color is not colorfast and not recommended for outdoor direct sunlight applications.

Applications:

Swimming pool decks, Locker rooms, Shower rooms, Changing rooms, Gyms & Recreation centers.

PROFESSIONAL LIGHTING

AIRSTAR

SAFETY LIGHTING BATTERY OPERATED

Propack 300

Standard:

IEC-60598-1, CE, IP54

Descriptions:

- Battery operated for portable use.
- 22,000 lumen.
- 360° uniform lighting.
- High-performance LED technology.
- Compact and lightweight design.
- Weather-resistant construction.
- Easy and quick setup.

Applications:

Construction sites, Events, Filming, Industrial operations, Emergency & Rescue.

*Available for rental or sale

AIRSTAR

SAFETY LIGHTING

Sirocco 300 (22,000 lumen)
Sirocco 500 (44,000 lumen)
Sirocco 700 (66,000 lumen)
Sirocco 1000 (99,000 lumen)
Sirocco 1300 (132,000 lumen)

Standard:

IEC-60598-1, CE, IP54

Descriptions:

- 360° uniform lighting.
- High-intensity illumination.
- Durable and weather-resistant design.
- Stable and adjustable stand.
- Easy and quick deployment.
- Suitable for various worksites.

Applications:

Construction sites, Events, Filming, Industrial operations, Emergency & Rescue.

*Available for rental or sale

AIRSTAR

EVENT LIGHTING SPHERE

Crystal RGBW (66,000 lumen)

Standard:

IEC-60598-1, CE, IP54

Descriptions:

- Lighting: RGBW (Red, Green, Blue, White) LED lights.
- Design: Sleek, modern sphere shape.
- Color customization: Full spectrum of color changes.
- Durability: Weather-resistant and durable.
- Power source: Battery-operated.
- Size: Available in various sizes.
- Control: Remotely controlled or programmed for effects.
- Light effect: Soft ambient lighting or vibrant color effects.
- Can be customized with your personalized logo on the balloon for impactful event branding.

Applications:

Events, Exhibitions, Weddings & Parties.

*Available for rental or sale

AIRSTAR

EVENT LIGHTING TUBE

Neo Pixel RGBW

Standard:

IEC-60598-1, CE

Descriptions:

- Lighting: RGBW (Red, Green, Blue, White) LED lights.
- Design: Cylindrical tube shape.
- Color Customization: Full spectrum of color changes.
- Durability: Weather-resistant and durable.
- Power Source: Battery-operated.
- Size: Available in various sizes.
- Control: Remotely controlled or programmed for effects.
- Light Effect: Soft ambient lighting or vibrant color effects

Applications:

Events, Exhibitions, Weddings & Parties.

*Available for rental or sale

PETZL

HEADLAMP

TIKKINA® (300 lumen)

Standard:

IPX4

Descriptions:

- Compact and lightweight design.
- Multiple lighting modes.
- Adjustable headband for comfort.
- Water-resistant construction.
- Powered by 3 AAA batteries.

STREAMLIGHT®

HANDHELD FLASHLIGHT

Dualie® (275 lumen)

Standard:

IP67
ATEX Class I, II, Division 1, Groups A, B, C, D, E, F, G; Class III; CL I, ZN 0, IIC; T-Code: T4

Descriptions:

- Dual-light technology (Spot and Flood).
- High-impact resistant construction.
- Waterproof and chemical-resistant design.
- Hands-free use with integrated clip.
- Long battery life.
- Certified for hazardous environments (Depending on Model).

EVACUATION & RESCUE

EXIT MASTER

EVACUATION CHAIR VERSA ELITE

EMCVE

Standard:

CE 93/42/EEC

Descriptions:

- Ergonomic & easy-to-use with 'Stoop-free' and 'Free-walk' design for enhanced operator comfort and control.
- Large Footrest for extra passenger comfort.
- Upright 4-wheel design only 1 operator needed for loading and travel.
- Top step safety feature for operator and passenger confidence.
- Mobility handles for easier movement along corridors.
- Armrest for extra passenger comfort.
- Four-point harness for extra passenger safety.
- Capacity: 180kg.

Applications:

Evacuation & Rescue.

FERNO

TITAN TITANIUM BASKET STRETCHER

TITAN

Standard:

US Military specification: MILL-37957A

Descriptions:

- Lightweight yet incredibly strong titanium construction.
- Designed for high-angle, water, and confined space rescues.
- Reinforced frame for maximum durability and patient security.
- High-strength, corrosion-resistant materials for extreme conditions.
- Secure fastening points for easy attachment to lifting systems.
- Molded hand grips for comfortable handling and transport.
- Compact design for efficient storage and rapid deployment.

Applications:

Evacuation & Rescue.

KRATOS SAFETY
SOLUTIONS FOR LIFE

SAFETY TRIPOD KIT
FA 80 113 00

Standard:

EN 795: 2012 Type B

Descriptions:

- Aluminium tripod designed for confined space access and rescue operations.
- Equipped with two mounted pulleys at the head for guiding lifeline.
- Telescopic legs with steel support shoes for stability.
- Adjustable height from 1.15 m to 2.15 m.
- Compatible with fall arrest and rescue devices.
- Comes with two attachment points for winches or fall arrest blocks.
- Supplied with a carrying bag for easy transport.

Applications:

Evacuation, Confined space entry & Rescue.

3M

SCOTT SAFETY ELSA-15-B
2009419

Standard:

CE, EN 1146: 2005
MSB certified

Descriptions:

- Emergency life support apparatus (ELSA) for escape situations.
- Provides 15 minutes of breathable air supply.
- Automatic activation upon opening the bag for quick deployment.
- Compact and lightweight design for easy carrying.
- Highly visible hood with wide field of vision.
- Designed for use in hazardous environments with smoke or toxic gases.
- Durable and resistant materials for long-term reliability.

Applications:

Evacuation & Rescue.

ISC
Solutions in Metal

A-FRAME DEADWEIGHT ANCHOR

DW200.3

Standard:

EN795: 2012 Type E

Descriptions:

- Lightweight yet incredibly strong titanium construction.
- Designed for high-angle, water, and confined space rescues.
- Reinforced frame for maximum durability and patient security.
- High-strength, corrosion-resistant materials for extreme conditions.
- Secure fastening points for easy attachment to lifting systems.
- Molded hand grips for comfortable handling and transport.
- Compact design for efficient storage and rapid deployment.

Applications:

Evacuation, Confined space entry, Rescue & Work at height.

EVAPORATIVE COOLING SYSTEM

WORXwell

MISTING MACHINE

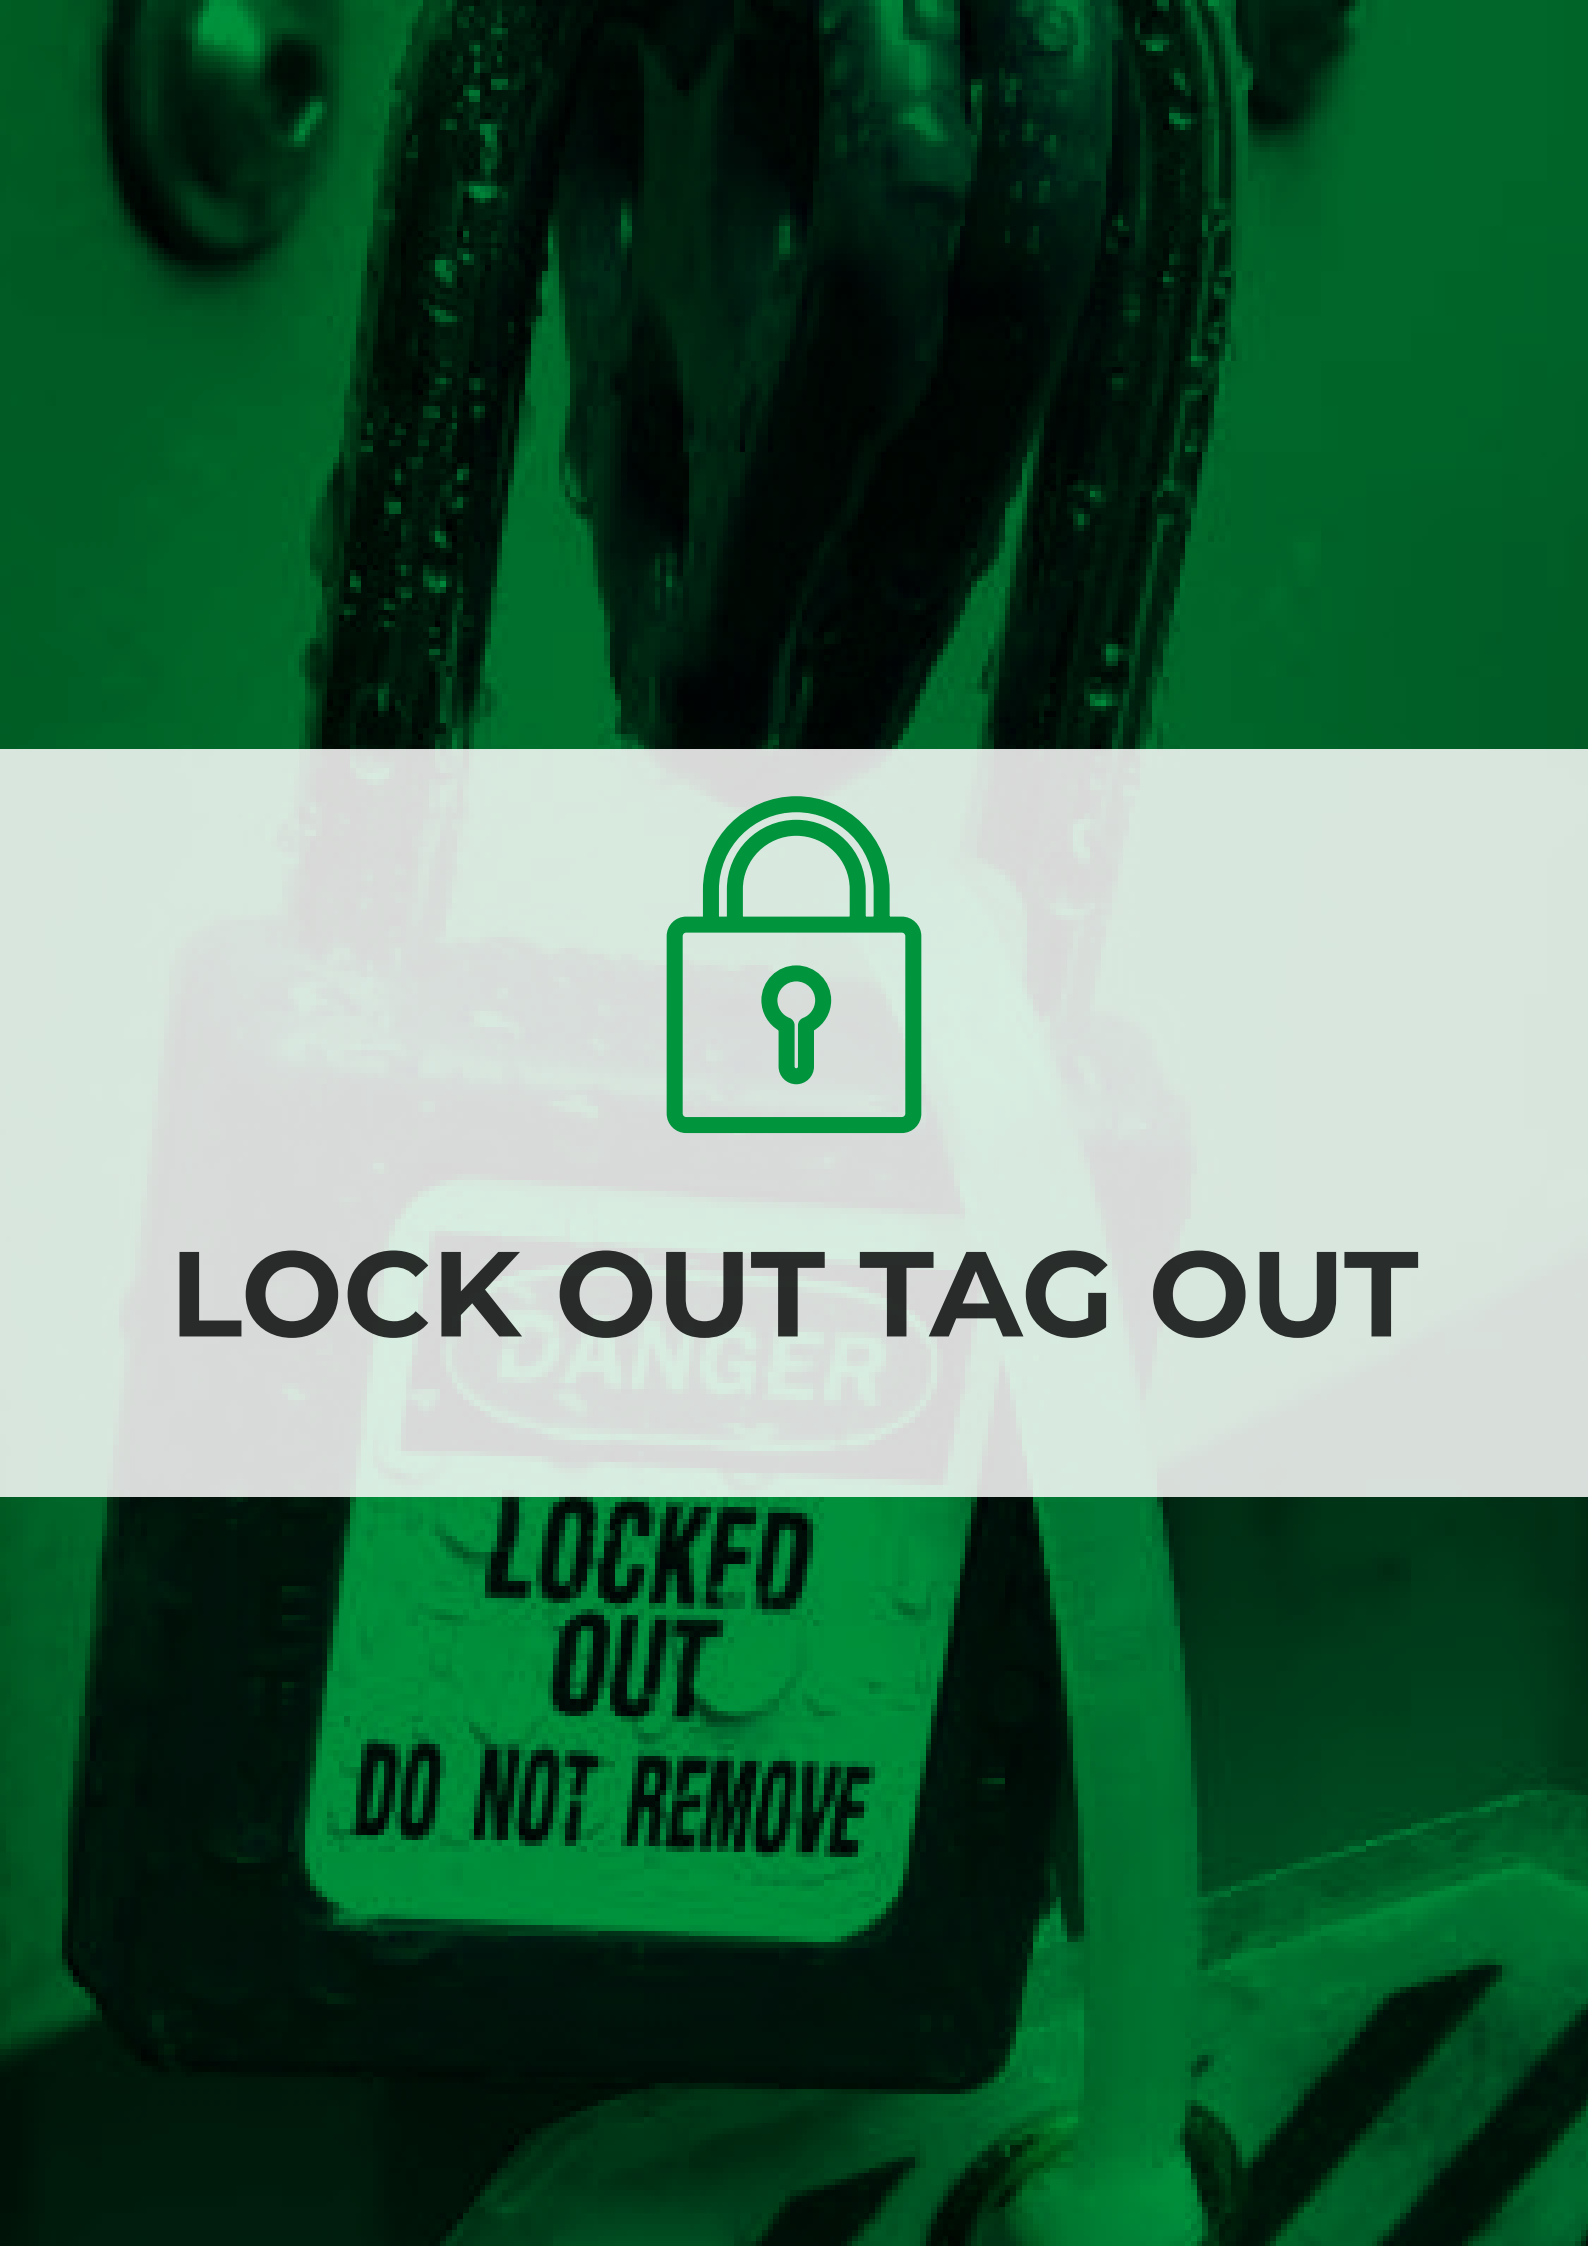

Descriptions:

- Provides efficient cooling through water mist evaporation.
- Reduces ambient temperature in hot environments.
- Ideal for outdoor and industrial cooling applications.
- Energy-efficient and eco-friendly operation.
- Adjustable misting nozzles for customized cooling.
- Portable and easy to install for various setups.
- Helps control dust and improve air quality.
- Cool down: Lower temperatures by up to 12°C in hot weather.
- Humidity control: Ideal for plants, animals, and indoor spaces.

Applications:

Restaurants, Cafés & Outdoor Dining Areas – Keep your customers comfortable while they enjoy their meal.
Gardens, Patios & Poolsides – A refreshing atmosphere for your backyard or pool.
Event Venues & Resorts – Enhance outdoor events, weddings, and leisure spaces.
Agricultural Greenhouses & Livestock Farms – Maintain ideal conditions for crops and animals.
Theme Parks & Amusement Parks – Provide a cool and enjoyable experience for visitors.
Construction Sites & Industrial Areas – Reduce dust and keep workers cool in the heat.
Warehouses & Factories – Control temperature and humidity for a comfortable working environment.
Hotels & Resorts – Create a cool and welcoming atmosphere for guests.

Scan this QR code to watch our misting machine in action!

LOCK OUT TAG OUT

Master Lock

LOCKOUT KITS FOR ELECTRICAL & MECHANICAL SYSTEM

Descriptions:

- Comprehensive lockout kit for electrical and mechanical systems.
- Includes padlocks, hasps, and tags for safety compliance.
- Designed for energy isolation and accident prevention.
- Durable and portable storage case for easy transport.
- OSHA and safety regulation compliant.
